Met Office Aberdeen Meteorologist's View
A good day for cloud inversions on the munros, especially in the afternoon.

Forecast for Sunday 14 Nov 2021
Weather: High cloud thickens and lowers through the early hours, bringing some patchy light rain east showery before dawn. Then a mainly dry but cloudy day. The cloud thick enough for a little light drizzle towards Ben Alder, but drier and brighter further east. Persistent rain spreading east around midnight.

Maximum wind: South 20-25 gusting 30-35 mph. Note, strongest winds may be below the higher summits at around 800-1000m.

Chance of cloud free mountain/hill tops above 800m: Nil in the west, 40% in the east

Visibility: Poor at height, especially in the west where cloud will be persistent above 500-600m. Further east across the Cairngorms and Monadhliath hills cloud bases around 800m, with cloud more broken.

Temperature: **Glens:** Plus 6 Celsius rising to 12 Celsius
At 800m: Plus 4 or 5 Celsius
Freezing level: Above the summits.
